ELECTRIC POWERED

## Lawn and Garden Program

**ENERGYWISE**<sup>SM</sup>  
Use less. Spend less. Do more.

# Maybe it's time to go electric

Gasless, but not gutless. Quiet, but not shy. Advances in battery technology have resulted in more power being packed into your lawn and garden equipment. Maybe it is time to consider upgrading your conventional, gas-burning lawn and garden tools to electric and receive a 20% incentive. Not to exceed \$1,500 per incentive.

## Advantages

- Lower energy costs – changing to electric can cut the operation costs to approximately half the cost of the gas-powered option.
- Less maintenance – no spark plugs, air filters, fuel filters, or oil change.
- Quieter operation – for example, electric mowers create up to 75 decibels of sound, which is like a washing machine. Gasoline mowers can exceed 95 decibels, which is comparable to a motorcycle on the highway.
- Eco-friendly – no toxic gas emissions from nitrogen oxides, airborne particulates, carbon monoxide, or carbon dioxide.

## Follow these easy steps

- Obtain an EnergyWise<sup>SM</sup> Lawn and Garden Program application from your participating local utility or visit [EnergyWiseNebraska.com](http://EnergyWiseNebraska.com).
- Purchase your choice of a new (not used, previously owned or factory reconditioned) battery-powered or corded equipment.
- Chargers and additional battery purchases are available for the incentive at time of initial equipment purchase.
- Power tools are not included.
- Complete the application and return it to your local utility with a copy of proof of purchase identifying the equipment and any batteries.

Incentives valid as of 1-1-2025. Subject to change without notice. Verify incentive amounts and program information at [EnergyWiseNebraska.com](http://EnergyWiseNebraska.com). Sponsored by Nebraska Public Power District in partnership with its Wholesale Utility Customers.

## LAWN AND GARDEN PROGRAM

Incentive application must be completed and submitted to your local electric utility along with the proof of purchase. Contact your local utility with any questions.

- 20% incentive on electric lawn and garden equipment; lawn mowers (riding, walk behind, robotic), chainsaws, edgers, pruners, leaf and snow blowers, tillers, trimmers, etc.
- Must be brand new and purchased on or after January 1, 2025.
- Chargers and battery purchases are available for the incentive at time of initial equipment purchase.
- Power tools are not included.
- Incentive amount is based on purchase price (taxes, delivery/shipping and set up costs are not eligible).
