ENERGYWISE Use less. Spend less. Do more.

Sponsored by Nebraska Public Power District in partnership with its Wholesale Utility Customers.

Get EnergyWise[™]Today

EnergyWise[™] programs offer incentives to homeowners, businesses, and agriculture to help cover the cost of a variety of energy-efficient upgrades.

Is your commercial lighting the best it can be?

On average, interior lighting accounts for 28 percent of a business's energy consumption. It is also a contributing

factor to a facility's productivity, employee morale, and safety.

Lighting technologies developed in the past ten years can help cut your lighting costs up to 80 percent while enhancing lighting quality and reducing environmental impacts.

Metal-halide fixtures commonly found in gymnasiums and warehouses are being replaced with high-efficiency light-emitting diode (LED) technologies that reduce energy use. Retailers are finding similar benefits while upgrading their stores' fluorescent fixtures.

Your utility's Commercial/Industrial Lighting Efficiency Program offers cash incentives to help cover the cost of a variety of energy-efficient upgrades.

Follow these easy steps

- Visit with your electrical utility to discuss your project and pick up an application form.
- Obtain a contractor and install any of the energy-efficient lighting products as identified in the table to the right.
- Complete an application form after installation is complete.
- Submit the signed application (along with the proof of purchase identified in the application's terms & conditions) to your local utility for the incentive within 90 days of installation.
- Lighting must be listed by Design Lights Consortium (DLC) as defined in Terms & Conditions.

COMMERCIAL/INDUSTRIAL PRESCRIPTIVE LIGHTING

For self-installations, incentive is limited to the lesser of the values printed below or 50% of purchase price not including taxes or shipping.

LIGHTING EQUIPMENT		LED WATTAGE	INCENTIVE
Linear Fluorescent (Replaces fluorescent)	NEW LED Fixture	9 - 22 watts LED	\$5
		23 - 45 watts LED	\$10
		46 - 68 watts LED	\$15
		69 watts or greater LED	\$20
	Retrofit Lamp, Tube, Panel or Kit	9 - 22 watts LED	\$2
		23 - 45 watts LED	\$4
		46 - 68 watts LED	\$6
		69 watts or greater LED	\$8
	NEW LED Fixture	9 - 65 watts	\$20
High Bay, Exterior Dusk-to Dawn		66 - 130 watts	\$40
Replaces:		131 - 240 watts	\$60
Mercury Vapor		241 watts and greater	\$80
Metal Halide	Retrofit Lamp	9 - 65 watts	\$8
High Pressure Sodium		66 - 130 watts	\$16
• Incandescent (300 watts or greater)	or Kit	131 - 240 watts	\$24
(coo mand or ground,		241 watts and greater	\$32
LED Exit Signs	Does not require DLC listing	Under 8 watts	\$10
Fluorescent freezer/ refrigerator case lighting		5' or 6' LED	\$20
Unsensored control		Occupancy sensor	\$15

- Existing facilities only; new construction does not qualify.
- Downlighting, LED-to-LED, and upgrades for fluorescent lamps that are less than three (3) foot in linear length do not qualify.
- By signing below, customer agrees to having met the Terms & Conditions listed on the back of this application.

If you don't see your lighting option, contact your local electric utility to see if your project may qualify for the EnergyWiseSM Custom Lighting Program.

Incentives valid as of 1-1-2023. Subject to change without notice. Verify incentive amounts and program information at EnergyWiseNebraska.com. Sponsored by Nebraska Public Power District in partnership with its Wholesale Utility Customers.
